Device Procedure Prepping

To: _____ Date: _____

Arrangements have been made for your
loop recorder implant:

(Date and time of scheduled procedure)

1. If you take Coumadin or Warfarin **stop** taking it 4 full days prior to the procedure.
2. If you take Eliquis, Xarelto, or Pradaxa **stop** 2 full days before the procedure.
3. Blood work may need to be done before your procedure, if so, our office will inform you. (CBC and PTINR)
4. Nothing to eat or drink 2 hours before.
5. Men if you have a hairy chest you may want to shave, otherwise we will do it for you.
6. You may bring family members. However, they cannot come back into the room with you.
7. If you have a smart phone please bring it with you.
8. After care instructions will be given to you after your procedure.
